Re: Draft Foyle & Carlingford Fisheries (N.I.) Order 2007.

Some initial views on above order, for your consideration and digestion.

- ◊ That the F.C.I.L.C. advisory forum be retained to advise on the rolling out of Enactments and Statutory Instruments post the establishment of the Foyle and Carlingford Fisheries (N.I.) Order 2007 – the enabling legislation.
- ◊ That the influence of the F.C.I.L.C. advisory forum be strengthened to reflect more effectively stakeholders interests in decision process.
- ◊ Part 2 Aquaculture:  
That the "Licensed area" in Lough Foyle be subject to reduction from the towers at the entrance to the Lough and southwards to take account of the ferry crossing between Magilligan and Greencastle which is subject to periodic dredging.
- ◊ 22 Powers Of Authorised Person
  - (a) Facility to photograph offenders.
  - (b) Facility to record offenders/charges on tape.

Yours sincerely

  
Mc Inerney Associates (Advisory Forum Member)
